## Who We Are

Endeavors is a national non-profit that connects vulnerable populations to a wide range of life-changing services. Since 1969, the San Antonio-based organization has provided an array of programs in support of children, families, Veterans, and those struggling with mental illness, disabilities, disasters, or emergencies.

**Our Mission is to serve vulnerable people in crisis through our innovative, personalized approach.**

We seek to provide comprehensive, effective, and innovative services that encourage growth, allowing people to build better lives for themselves, their families, and their communities. Why? Because we believe that everyone holds the capacity to grow, heal, change, succeed, and affect others positively.

# SUPPORTING Our Veterans

We are passionate about serving military Veterans because they've served us. Often, this service comes at a cost—many Veterans suffer silently from mental health issues. The ramifications of these conditions often mean “regular life” feels out of reach for both Veterans and their families. Some find themselves homeless, unable to hold down a steady job. Some find themselves depressed or isolated. Regardless of their situation, we are here to help.

Through [The Steven A. Cohen Military Family Clinics](#), [Veteran Supportive Services](#), and [Veteran Wellness Center](#), we offer a holistic array of programs to help Veterans find their way back. From basic meals to rental assistance to physical and mental health to parenting classes, we want to equip those who've served with the tools they need to live a better life.
